Origin & Philosophy

Mallorca is our beginning.

Light, texture, and movement shape every creation.

Each piece is inspired by nature, forms that exist for a moment, yet leave a lasting impression.

We transform these fleeting elements into something enduring.

Refined through craftsmanship, preserved in precious form.

Nature, captured, not as it was, but as it continues to live on..

CRAFTSMANSHIP

From Nature to Timeless Form

Each piece begins with a form shaped by the Mediterranean.

Selected and studied in its natural state, valued for its irregularity, its character, its truth.

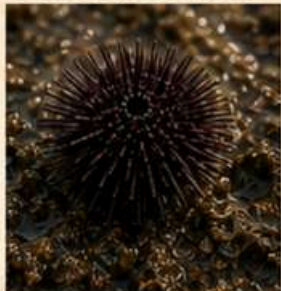

In Germany, skilled hands transform this origin into fine jewelry through precision, patience,

and an uncompromising attention to detail. What begins as nature becomes something enduring.

The Process

NATURAL FORM

Sea urchins found in the Mediterranean surrounding Mallorca.

2

SELECTION

Chosen for their unique structure and character.

Forms translated into refined, wearable design.

4

WAX MODEL

SEA STAR Collection

Born from the rhythm
of the sea.

A form shaped by nature,
softened by time and tide.
Curved, organic, and alive,
never perfectly symmetrical.

Designed to be worn,
felt, and remembered.

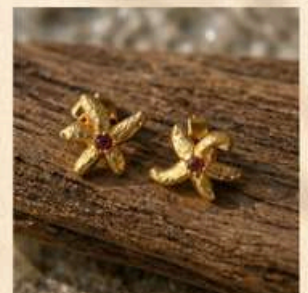

Necklace

Signature piece
Organic form,
shaped by the sea.

Earrings

Delicate studs
Naturally irregular,
quietly distinctive.

RAW PRODUCTION

From nature.
Through the hand.

Each piece begins as a raw form,
shaped by the sea,
untouched, imperfect, real.

Refined slowly,
with precision and intention.

Every surface considered.

Every detail earned.

No two are ever the same,
each one carrying its own origin.

Opal Collection

Formed in nature.
Finished by hand.
No two stones are ever the same.

OPAL RING

Born in nature.
Set by hand.

Each stone,
singular, unrepeatable.

OPAL COLLECTION

From stone to story.

Each piece begins in its raw form,
held, shaped, and refined by hand.

No shortcuts.

No repetition.

Only craftsmanship.

Every opal is unique,
cut, set, and finished individually.

SUNSET, SEA & MOON

From the last light of day
to the depth of the sea
to the stillness of night.

Each stone holds a moment;
captured, shaped,
and set in gold.

SUNSET
Golden light that lingers.

SEA
Depth, clarity,
movement.

MOON
Quiet beauty in
stillness.

WARMTH
The fire of the horizon.

Diamond Collection

Pure form.
Enduring brilliance.

Each piece is shaped with precision,
set by hand, and designed to last.

Timeless by nature.
Refined in every detail.

NATURAL ELEGANCE

Not everything needs to stand out to be seen.

These pieces are defined by balance,
between softness and structure,
color and restraint,
presence and ease.

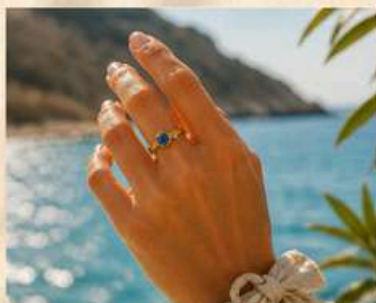

A pearl shaped over time.

A sapphire holding quiet depth.

Stones chosen for their natural tone and
character.

Each element is placed with intention,
allowing the material to speak for itself.

Designed to move effortlessly
between moments,
never overpowering, always belonging.
